Air Quality Department

Voluntary Vehicle Repair & Retrofit (VVR&R) Program Summary

Step 1 – Does your vehicle qualify for the VVR&R Program?

- ❖ You must be willing to participate and your vehicle must be functionally operational.
- ❖ Your vehicle must be at least 12 (model) years old.
- ❖ Your vehicle must be titled in Arizona.
- ❖ Your vehicle must have been registered in Arizona during the preceding 12 months. It cannot have been unregistered for more than 60 days. A registration renewal notice does not qualify.
- ❖ Your vehicle must have failed a required emissions test in the "Emissions Inspection Results" within the past 60 days; failures in the "Equipment or Pressure & Purge Inspection Results" are not eligible.
- ❖ The emissions control system has not been tampered with, removed, or disabled.
- ❖ Work must be done at an authorized repair facility.
- ❖ One vehicle per owner.
- ❖ Motor homes, motorcycles, salvage vehicles and fleet vehicles are not eligible.
- ❖ If your vehicle is eligible for a Retrofit Kit, you must have one installed.
- ❖ There are no reimbursements available for work already done.
- ❖ Some vehicles may not be eligible for assistance if they are in extremely poor condition.

Step 2 – Being accepted into the VVR&R Program

- ❖ Make an appointment with one of the repair facilities below.
- ❖ Take your title, current registration and emissions failure notice to the repair facility.
- ❖ Sign the required agreement sheet.
- ❖ A technician will verify that your vehicle can be repaired and/or retrofitted to pass the emissions test. There will be a \$50 diagnostic fee if the vehicle is removed from the program.
- ❖ Pay the required \$150 co-payment to the repair facility. Maricopa County will pay up to an additional \$550 for emissions related repairs or \$650 for a Retrofit Kit and installation. The intent of the VVR&R Program is to repair vehicles correctly the first time; if the cost to do this exceeds the above limits, you may pay the balance or remove your vehicle from the program.

Step 3 – Authorized Repair Facilities

Action Auto Repair

2050 W. Deer Valley Rd., Ste. A
Phoenix, AZ 85027
(623) 582-2982

Thiem Automotive Specialist

401 E. Western Ave.
Avondale, AZ 85323
(623) 932-4340
Hours: M-F 7:00-6:00

Step 4 – Repair and/or Retrofit

The authorized repair facility will repair and/or retrofit your vehicle. A technician will then take your vehicle to an emission station for a retest. The repair facility will need your vehicle for approximately a day to do this. Repair times may vary based on business demands and the make, model and year of the vehicle.

If you have any questions, please call the Voluntary Vehicle Repair & Retrofit Helpline at (602) 506-6016.
